Our Showrooms are Again Open to Personal Visits

To limit the amount of people in the showroom at any given time, visitors must be accompanied by a consultant at all times. We strongly advise scheduling an appointment ahead of time. Without an appointment, visitors may be asked to remain outside the showroom until the next consultant becomes available. We are also available for consultations by phone, email or [Zoom](#).

For hours and contact details, visit the showroom location page [here](#).

COVID-19 Precautions

Your health and well-being and that of our employees will always be a top priority. We are committed to acting in a responsible manner while still providing the excellent service we are known for. Here are the steps we are taking to ensure everyone's safety:

- We are limiting the number of guests to one per available consultant.
- Showroom Consultants will maintain a distance of six feet from visitors and will refrain from physical contact, such as handshakes.
- As recommended by the CDC, and required by some states, Showroom Consultants and guests must wear facemasks when maintaining a distance of six feet is not possible.
- We will continue to follow healthy sanitary practices. This includes frequent handwashing and the regular cleaning of product displays and restrooms.
- We are monitoring the health of our Showroom Consultants daily.
- Any visitor with a cold, cough or other symptoms related to COVID-19 will not be allowed in our showrooms.
- While we believe it is best that children not visit our showrooms at this time, we ask visitors to please keep them close.

Thank you for your business and for helping us keep everyone healthy.
